COGG and the 20 Year Strategy

- An Chomhairle um Oideachas Gaeltachta agus Gaelscolaíochta will play a key role in the implementation of the Strategy in the education sector working in collaboration with existing agencies.
- The Council will be appropriately staffed and resourced to carry out its existing remit.
- The role of COGG will be strengthened to reflect the need to address various issues particular to the teaching and learning of Irish in schools operating through the medium of Irish, both inside and outside the Gaeltacht and the teaching of Irish in all recognised schools. COGG will play a strong role in directly advising Irish-medium schools on best practice in the provision of education through the medium of Irish.
- With regard to the larger issue of the specific needs of Gaeltacht and Irish-medium schools, a high-level group will review existing policies and explore possible changes, including the development of a new policy for Gaeltacht and Irish-medium schools. Other possible functions for COGG will also be considered in the context of these discussions. The high-level group will have representation from relevant stakeholders, including the Department of Education and Skills, the Department of Community, Equality and Gaeltacht Affairs, An Chomhairle um Oideachas Gaeltachta agus Gaelscolaíochta, Foras na Gaeilge and the new Irish Language and Gaeltacht Authority
